

BCSI SERVICES WEEK 2026 | MSME COCKTAIL RECEPTION

Faster Money, Stronger Business

BiMPay and the engine of the services sector

Delivered by

Dr., The Most Honourable Kevin Greenidge, F.B.
Governor, Central Bank of Barbados

June 27, 2026

How money moves

Something technical, but at its heart deeply human.

The speed of paper

- A cheque written Monday might not clear until Thursday.
- A payment due late Friday waited for Monday morning.
- For a big company, an inconvenience.

For a small business, the same delay is the difference between making payroll and missing it.

The caterer. The hairdresser. The craft vendor. The young developer in a back bedroom in Christ Church.

A road network for money

Where there is no road, development struggles. BiMPay is that network, for money.

Connected

Links every commercial bank and our largest credit unions.

Instant

Payments travel from one person or business to another, in seconds.

Always on

24 hours a day, 7 days a week, weekends and holidays.

Wider access

Designed to support participation, including digital wallets.

Live since 12 June 2026

What it means for your business

Cash flow

When a customer pays you over BiMPay, the money is yours in seconds, not days. Faster money is steadier money, and steadier money is survival.

Lower cost

Card fees and payment costs can add up quickly. BiMPay gives businesses a secure, low-cost way to collect payment, without needing expensive card terminals or complex acquiring arrangements.

Getting paid on time

Request to pay sends a digital prompt; they tap, they pay, the funds arrive. Once paid, you have certainty: no bounced cheques, fewer unpaid bills, less time chasing money already earned.

What it means for your business

Pay others with ease

With bulk payments you can settle staff salaries and several suppliers in a single instruction. Less time on administration, more time growing your enterprise.

Build a record

Every transaction creates an electronic record, and those records build a financial history, exactly what a lender looks for when a small business asks for credit.

Wider inclusion

BiMPay is designed to support participation beyond traditional bank accounts, including through digital wallets, reaching Barbadians outside the formal system.

BiMPay App Tutorial

BiMPay

App Tutorial

Data Protection

- We collect data in aggregate form only
- We are not monitoring individuals
- The Bank has never had a data breach in its 55-year history

Post-Launch FAQs

1. Why can't I link my e-wallet to more than one institution?
2. How can I unlink my account from an institution?
3. Why is my date of birth incorrect?
4. Why are transactions missing descriptions?

Building Barbados' Digital Future

- Supporting a more productive economy
- Strengthening competitiveness
- Expanding opportunities for MSMEs
- Driving innovation and inclusion
- Success through partnership

Barbados has embraced it

315,000+

transactions carried since launch on
12 June

\$124.2M

moved on Thursday, 25 June, across
62,444 transactions

21,766

e-wallet registrations, and still
climbing

The very first payment was made by the Prime Minister, to a food vendor. Built for the everyday business of everyday Barbadians.

My ask of you this evening

A practical one.

1

Register

Register through your participating financial institution or BiMPay channel.

2

Put it to work

Use it inside your day-to-day operation.

3

Tell your customers

The network grows more useful with every business that joins.

With thanks to the BCSI, including the Services Week webinar, where my team will walk you through the benefits and registration, step by step.

The services sector is the engine of this economy.

Make it cheaper, faster and easier for that engine to be paid, and we strengthen every enterprise in this room, and many beyond it.

Let us continue working together toward a faster, fairer and more connected Barbadian economy.

Thank you.
